OBJECTIVE

Motivated Computer Science (Data Science) student with foundational knowledge in Python, SQL, DBMS, frontend development, and problem-solving. Passionate about backend development, database management, and software engineering. Seeking internship and entry-level opportunities to apply technical skills, gain hands-on industry experience, and grow in database and backend technologies.

SKILLS AND INTERESTS

Web Technologies	HTML,CSS,Javascript
Programming Languages	Python ,django
Database and Backend	SQL(Oracle)
Tools	Git & Github, VS code
Interests	Python Full stack development,Database Management

EDUCATION

Moodlakatte Institute of Technology, Kundapura

Oct 2022-2026

Bachelors of Engineering in Computer Science (Data Science)

CGPA - 8.1

EXPERIENCE

Frontend Developer Intern | Anvelos Softwares

- Built and maintained the front-end of a live client website using **HTML & CSS**.
- Implemented **responsive design** and collaborated with design and backend teams.

ECHO EATS – AI Voice Assistant Food Ordering System

- Developed an AI-powered voice-based food ordering web application.
- Worked with React.js frontend, Django backend, and MySQL database integration.
- Implemented voice command processing for ordering, navigation, login, and cart management.
- Integrated speech recognition and AI-based command handling.
- Utilized APIs, authentication, and payment gateway integration concepts.

PROJECTS

Ayushvi – Ayurvedic Application (Mini Project)

- Developed a mobile application to promote Ayurvedic remedies and wellness tips

Marine Debris Detection Using Machine Learning

- Performed data preprocessing, feature extraction, and model training to improve classification performance.
- Python, Machine Learning, OpenCV, NumPy, Pandas, Scikit-learn

Resume Analyzer & ATS Screening System

Built a web-based ATS resume analyzer that extracts skills from PDF resumes, compares them with job descriptions, and generates ATS and match scores with skill-gap analysis.
